

Didrik Nielsen | Curriculum Vitae

☎ +47 9947 7379 • ✉ didrik.nielsen@gmail.com • 🌐 didriknielsen.github.io

MSc in Applied Physics and Mathematics. Passionate about *machine learning*, in particular Bayesian approaches. Interested in the development and evaluation of probabilistic models, as well as design of approximate inference methods.

Education

- **Norwegian University of Science and Technology (NTNU)** **Trondheim, Norway**
MSc Applied Physics and Mathematics, Average Grade: A *August 2011–December 2016*
Main profile: Industrial Mathematics. Specialization: Statistics.
- **National University of Singapore (NUS)** **Singapore, Singapore**
Exchange Student, Average Grade: A- *January 2015–May 2015*

Employment

- **DTU Compute** **Copenhagen, Denmark**
Research Assistant *September 2018–*
 - Working as a research assistant at DTU Compute with Prof. Ole Winther.
 - Allocated to a project with the start-up raffle.ai. Tasks:
 - Using natural language processing, deep learning and active learning to develop corporate virtual assistants.
- **Center for Advanced Intelligence Project (AIP), RIKEN** **Tokyo, Japan**
Research Assistant *March 2017–August 2018*
 - Working in the Approximate Bayesian Inference (ABI) team.
 - Working with Mohammad Emtiyaz Khan in research with a focus on variational inference. Tasks:
 - Participate in the generation, execution and communication of research ideas.
 - Contributed to three conference papers, one arXiv paper, two workshop papers.
- **Norwegian Computing Center** **Oslo, Norway**
Assistant Research Scientist *June 2016–July 2016*
 - Summer job in the Statistical Analysis, Machine Learning and Image Analysis (SAMBA) department.
 - Working on a research project on fraud detection. Tasks:
 - Clustering of insurance policies.
 - Hyperparameter tuning for predictive models.
 - Social network analysis of customer transactions.
- **Norsk Hydro** **Oslo, Norway**
Summer Intern *June 2015–August 2015*
 - Summer internship in the Energy Markets department.
 - Developing trading strategies for energy markets. Tasks:
 - Prepare and clean data, both technical indicators and fundamental factors.
 - Use machine learning methods to generate trading recommendations.
- **If P&C Insurance** **Oslo, Norway**
Summer Intern *June 2014–August 2014*
 - Summer internship in the Motor Insurance department. Tasks:
 - Analyzing trends in insurance claims.
 - Analyzing the effects of a marketing campaign.

Teaching & Invited Talks

- **Data Science Summer School** **Paris, France**
Teaching Assistant *June 2018*
I was a TA in the two-day tutorial on Approximate Bayesian Inference at the Data Science Summer School 2018.
- **Works Applications** **Tokyo, Japan**
Invited Talk *May 2018*
I gave a one-hour introduction to the field of Bayesian Deep Learning at the headquarters of Works Applications.
- **Norwegian University of Science and Technology** **Trondheim, Norway**
Teaching Assistant *January 2013–December 2016*
I held in total 7 teaching assistant positions in courses on statistics, calculus, finance and fluid mechanics. Tasks included weekly guidance of students as well as marking of exercises.

Extracurricular Activities

- **Bedriftskontakten Nabla** **Trondheim, Norway**
Business Contact *April 2013–April 2014*
I volunteered as a business contact in the student association. This work included contacting companies and organizing company presentations.
- **Hans Majestet Kongens Garde** **Oslo, Norway**
Guard Soldier *July 2010–July 2011*
Compulsory military service. I served one year as a guard soldier in the Royal Guard.

Skills

- **Languages:** Norwegian, English.
- **Programming Languages:** Python, R, MATLAB, C++.
- **Frameworks & Libraries:** PyTorch, TensorFlow.
- **Tools:** LaTeX, Git.
